

# PARKER TAKES COVETED PLUM

Is Chosen Standard Bearer of the Democratic Party After an All-Night Session.

## BRYAN IS DOWN AND ALL BUT IN

The Nebraska Man is Not Able to Hold His One Time Control of the Democratic Party—His Swan Song Is Sung.

[Special by Scripps-McLain.]  
St. Louis, Mo., July 9.—Chief Judge Alton B. Parker of New York was nominated at 5:40 this morning for president of the United States by the democratic national convention, on the first ballot. After the nomination the convention adjourned until two o'clock this afternoon, when the vice president will be nominated.

**Never Equalled**  
Amid scenes unparalleled in a national convention in the history of the democratic party, at five o'clock this morning the convention nominated Judge Alton B. Parker of New York for president. It had been a night of impassioned oratory, of taunting invective of fervid pleas for harmony. For ten hours these sensational demonstrations of enthusiasm had continued. Parker lacked but nine votes when the roll call was ended, but before the vote was announced Klubo changed six votes to Parker and Nevada followed suit with two. Parker now locked but one vote and West Virginia gave him thirteen and Washington ten, making a total of 689. Before this could be announced Gov. Dockery of Missouri withdrew Cockrell's name and moved Parker's nomination be made unanimous. This was done with a yell and a demonstration started. Everybody was too tired, however, to effervesce very much and a motion to adjourn was greeted with a howl of affirmation as 11,000 spectators and a thousand delegates made a break for the exits.

**By Ballot**  
The first ballot was: Parker, 626; Hearst, 200; Cockrell, 42; Wall, 27; Olney, 27; McClellan, 3; Miles, 2; Gray, 1; Williams, 8; Towne, 2; Coler, 1. The change of Idaho, Nevada and West Virginia brought Parker's vote up to 689. The climax of a night of sensationalism came at four this morning when after eight hours of noisy clamor, William Jennings Bryan in the midst of absolute silence began a speech in which he seconded the nomination of Cockrell of Missouri. It was the event for which the convention was waiting. He was fighting to prevent the nomination of Parker, but was leading a forlorn hope. In fiery speech others had seconded the nomination of a very candidate except Parker. There were cheers and shouts as he mounted the platform. Bryan said: "Eight years ago the democratic convention placed in my hands the standard of the party and gave me the commission as its candidate. Four years later the commission was renewed. I come tonight to this democratic convention to return the commission and say you may dispute whether I fought good fight, you may dispute whether I finished my course, but you cannot deny that I have not failed. (Cheers.) As a candidate I did all I could to bring the success to the party, and as a private citizen today, I am more interested in the democratic success than I ever was when I was a candidate."

**Us to Parker**  
St. Louis, Mo., July 9.—It is up to Judge Parker as the nominee of the democratic party to provide the money plank that was omitted from the platform. He can array himself and his party squarely and unequivocally on the side of sound money. Judge Parker's opportunity will come when he writes his letter of acceptance. He will have the unquestioned right to supply omissions in the platform.

While it might be doubtful taste on the part of a candidate to distort an accepted resolution or even to reject it, his right to declare his position on the question of highest importance to the country is conceded. The representatives of the democratic party who in their capacity as members of the committee on resolutions formulated the platform which was adopted last night admit that Judge Parker can proclaim his faith in the existing gold standard if he deems it prudent to do so.

**Can Commit His Party**  
Senator Bacon of Georgia, who assisted in completing the draft of the platform, says Judge Parker can commit his party to a money plank so safe and sane that it will receive the approval of the most advanced defenders of the gold standard.

"The committee and the convention," said Senator Bacon, "has left Judge Parker a duty to perform, and if he is the king of a man I think he will perform it in a manner that will win him the admiration and plaudits of the American people."

"I heard Senator Hill say in the committee on resolutions last night that he did not know what views Judge Parker held on the money question. If Senator Hill does not know it is a safe presumption that men from distant states like Georgia do not know."

"I believe, however, that Judge Parker is a man of prudence, lofty ideals, clean instincts and ardent patriotism. I believe, moreover, that he is a man of courage and force."

**Shown by His Silence**  
"If he were not he could not have maintained the dignified silence that has marked his career since his fellow citizens throughout the republic began to regard him as the man who should be nominated by the democratic party for president of the United States. I believe he is a man who will not hesitate to do that which he thinks is right."

"If he believes in the existing gold standard he will say so and present reasons for his belief that will appeal to the good sense of the people. If he is of the opinion that the convention should have supplied the omission, which is the most extraordinary feature of today's work, he will supply it. Clearly, therefore, it is up to Judge Parker."

**Bitter Arrangement**  
Bryan then quoted an extract from the speech of Gov. Black of New York in nominating Roosevelt, declaring that war still has its uses and that the danger of war necessitates the keeping of great figures at the front. The speaker continued: "This is an onlooker of war. This declaration that the time we hoped for, prayed for, of perpetual peace will never come. This is the eulogizing doctrine of brute force and the giving of denial to the hope of the race. And this president candidate for reelection is presented as the embodiment of that ideal, the granite and the iron, to represent the new ideas of militarism. If the president believes with his sponsor at Chicago that war must settle the destinies of nations and that peace is but a dream, he is a dangerous man for our country and the world. I believe he ought to be defeated. I believe he can be defeated and if the democratic party does what it ought to do, I believe he will be defeated. But friends, if I failed with six and a half million to defeat the republican party can those who defeated me succeed in defeating the republican party? If under the leadership of those who were loyal in 1896, (applause) we failed shall we succeed under leadership of those who were not loyal in 1896? (Applause.) If we are going to have some other god besides this war god that is presented to us by Gov. Black, what kind of a god is it to be? Must we choose a god of war and a god of gold? Is there no choice between them? If there is anything that compares in hatefulness with militarism is plutocracy and I insist that the democratic party ought not be compelled to choose between militarism on one side and plutocracy on the other."

Bryan then denounced as false the story that he had tried to be dictator and went on to say he still believed in the Chicago platform. Pledging himself to support the platform in any event he declared that Nebraska would support Hearst or Wall and he proceeded to eulogize former Governor Pattison of Pennsylvania. Then he went on formally to second the nomination of Senator Cockrell of Missouri. Daylight was seen through the windows. The Hearst men were disappointed and furious. The Parker people smiled once more, because they knew they were still in control of the convention.

Demonstration follow Bryan's speech and as soon as order was restored and the call of the territories was completed the first ballot was ordered. Bryan was not on the floor of the convention when the first ballot was completed. He had gone. The Nebraska delegation left after the last stand in flight against Parker. Bryan was then greatly exhausted and rested his head on the shoulder of ex-Attorney General Smythe of Nebraska, while his brother, Charles Bryan, fanned him vigorously. The great leader seemed on the verge of a collapse. The Hawaii delegation cast its vote almost at the bottom of the list. The Nebraska delegation passed out an exit of the hall almost unnoticed and went immediately to bed.

At 1:20 a motion to limit the seconding speeches to four minutes was carried. Kentucky seconded the nomination of Parker. Ex-Congressman Hall of Texas made a strong speech for the New Yorker. Maine yielded to Missouri and the eloquent Champ Clark presented the name of Cockrell of Missouri. One of the best speeches of the night was Clark's. Clark won the audience from the start with the declaration, "Yells and waving flags do not nominate a president. You yelled and waved, but I am going to name the next president." The states of Missouri and Nebraska were on their chairs cheering loudly for Cockrell. The demon-

## WAS WIFE AFTER HUSBAND'S MONEY?

Chicago Man Mistakes His Spouse for a Burglar, and Shoots Her.

[Special by Scripps-McLain.]  
Chicago, July 9.—Mistaking his wife early today for a robber Charles A. Milec reached from his bed and seizing a revolver shot her in the left side. The woman was probably fatally wounded.

## SPARKS FROM THE WIRES

Practically the entire business district of Roland, Storm county, Iowa, was destroyed by fire.

As the result of a cloudburst at the headquarters of Turtle Creek, near Pittsburg, Pa., two have lost their lives. The damage to property will be heavy.

The Marquette league of New York city has been incorporated to establish schools and other institutions for the improvement of the condition of the Indians.

Michael Kane, a traction conductor at Indianapolis, shot and fatally injured his wife and then sent a bullet into his own body, making a wound that may cause death. Kane was jealous of his wife.

The Canfield Eastlake sawmill and saw block at Manistee, Mich., were destroyed by fire, with their contents. They had been recently purchased by Richard G. Peters. Two hundred men are thrown out of employment.

Announcement is made of the engagement of Miss Cecelia Tobin and Charles W. Clark, son of Senator Clark of Montana. Mr. Clark's first wife died a few months ago at her home at Burlington.

The American line steamer St. Louis, which sails from Southampton on July 9 for New York, will take Mr. and Mrs. M. H. De Young and their two eldest daughters of San Francisco.

Count Albert Apponyi, leader of the national section of the liberal party in the lower house of the Hungarian parliament, has announced his intention of attending the international parliamentary congress to be held at St. Louis in September next.

Miss Emma Patrick of Austin, Tex., who is in charge of the Texas mining exhibit at the world's fair, has been appointed first vice president of the Mining Exhibit Superintendents' association.

Upon complaint of the Weise & Holman company of Green Bay, W. W. Thompson, of New London was arraigned at Appleton on Friday charged with obtaining goods under false pretenses and was placed under \$800 bonds.

Paul Gross, a moulder in years old, became suddenly insane at Racine on Friday. He ran nine miles into the country, knocked down two men, took a stand on a bridge that had been condemned to travel, and held twenty farmers at bay, before he was captured.

Farmers in the town of Wheaton, near Chippewa Falls, caused the arrest of J. J. Desmond, a civil engineer of the Wisconsin Central railway, believing he was insane. He has been taking levels in Wheaton with a looking glass and a water hub, and slept in the woods at night. His return to Milwaukee was advised.

**After Rosebud Land:** Charles I. Sloan has gone to Rosebud, South Dakota, where he will register for the drawing of the Rosebud lands at the last of the month.

## DODGES DR. MARY WALKER

Judge Dr. Bulger is a Fearless Man, but Cannot Face the "Physician."

St. Louis, Mo., July 9.—"Have you seen your fellow citizen, Dr. Mary Walker, Charlie?" asked George Raines of Rochester of Judge Bulger of Oswego this morning when the two democratic leaders in the state of New York met at the Southern.

"Only at distance," said the latter. "The greater the distance the better." Judge Bulger has to stand a considerable amount of joking on the part of his colleagues because the eccentric Mary Walker is from his town and she keeps him constantly on the lookout lest she succeeds in cornering him to explain her theories and ask to be introduced to his friends.

Judge Bulger is recorded of the city of Oswego and deputy attorney general of the state. Two years ago he was the party candidate for lieutenant governor on the Coler ticket. He has a reputation as a man of great courage in debate and as one not only willing to take but with the ability to give hard knocks. He is the only man who has had the courage to do other than carry favor with ex-Gov. Croker of Tammany Hall. He became well-known throughout New York because of his sensational attack upon the boss of Tammany in a Saratoga convention a few years ago. But he is afraid of Dr. Mary Walker and admits it.

## MAN NEARLY ELECTROCUTED IS ON ROAD TO RECOVERY

Excepting a Broken Thumb Edward Boyd Sustained no Internal Injuries.

Inquiries at the Park hotel this afternoon brought forth the statement that Edward Boyd, the innkeeper who had such a narrow brush with death yesterday was resting easily. Besides a broken thumb he sustained no internal injuries that can be discovered and it is thought that he will completely recover from his terrible experience.

## Shoots Wife and Himself.

Indianapolis, Ind., July 9.—Michael Kane, a Northwestern Traction company conductor, shot and fatally injured his wife, Mollie, and then sent a bullet into his own body. Kane was jealous of his wife.

## French Club Reinstates Relif.

New York, July 9.—John Relif, the clever light-weight American jockey, who was suspended two years ago by the stewards of the French Jockey club, is reported to have been reinstated.

## Copper Country League Umpire.

Calumet, Mich., July 9.—John C. McWatters of Chicago has been engaged to act as umpire for the Copper Country league, succeeding Verchere, from Holland, Mich., who was released.

## Would Expel Divorcees.

Crawfordsville, Ind., July 9.—Elder Ladoga of the Christian church has demanded the expulsion of seventeen divorced and remarried persons, saying they have violated the Biblical law.

## Save Nineteen From Norge.

Leith, Scotland, July 9.—Nineteen more survivors of the wrecked Danish steamer Norge, picked up from a boat by a sailing ship, have been landed at Thorshaven, Faroe Islands.

# RUSSIA ONCE MORE RETREATS

Gives Way Before the Clever Advances of the Japanese Leaders...Czar Is Disturbed.

## RECENT ENGAGEMENTS REPORTED

The Russians Are Said to Have Lost Very Heavily in the Last Few Skirmishes with the Soldiers of the Mikado.

[Special by Scripps-McLain.]  
St. Petersburg, July 9.—Gen. Sakharoff reports that a number of skirmishes occurred Wednesday, revealing the fact that the Japanese are advancing along their entire front between the coast and the Chinsan valley. Taosiehan heights were occupied by the Japanese Thursday after the Russian advance had retreated when confronted by superior numbers.

Rome, July 9.—The Tribuna's Liao Yang correspondent reports a short but severe engagement at Hoang. Gen. Kellar made a desperate defense of the Russian position, but the Japanese drove them off in disorder. The Russians, according to the Tribuna, lost 350 men killed.

**Naval Battle Reported**  
St. Petersburg, July 9.—It is reported in a special dispatch from Liao Yang under yesterday's date, that a persistent rumor is current there to the effect that a naval engagement has occurred at Port Arthur, in which twenty-one Japanese warships participated, resulting in a Russian victory. A similar report was current at Liao Yang July 5, the location of the engagement then being given as northward of Gen San, Korea.

**Skyrdloff Routs Jap Fleet**  
London, July 9.—A dispatch to a news agency from St. Petersburg says Vice Admiral Skrydloff has reported that on July 3 the Russian cruisers commanded by Vice Admiral Bezobrazoff met a Japanese squadron consisting of three battleships, four protected cruisers, and torpedo boats, in the Korean gulf and turned back.

The Japanese pursued the Russians, the battleships and cruisers firing on them without result. The Japanese torpedo boats then attacked the Russian ships, which returned the attack, and Admiral Bezobrazoff believes that two of the enemy's torpedo boats were sunk by the Russian fire. The next morning the Japanese had disappeared. The Russians sustained no damage.

## Japs Capture Fifty Russians

London, July 9.—The Chronicle's Tokyo correspondent telegraphs that in a fight near Kalping yesterday the Japanese captured three guns and fifty prisoners. The Russian advance guard was driven back with unknown loss. The Japanese casualties also are unknown.

## MADE VILE TALK; MOB HANGS HIM

Cordo, Alabama, Will Not Allow Negroes to Insult White Women.

[Special by Scripps-McLain.]  
Columbus, Miss., July 9.—For making offensive remarks to two white women an unknown Negro was taken from the jail at Cordo, Ala., by a mob late last night and hanged.

## STATE NOTES

Bonds were issued at Marinette on Friday for building a \$75,000 insane asylum.

Prof. J. C. Lymer of Evanston, Ill., has been appointed to the chair of mathematics at Lawrence university.

Mrs. J. Block of Peshtigo Harbor swallowed a dose of pills green on Thursday with suicidal intent and died in terrible agony.

William Williams, serving a life sentence in the Joliet, Ill., state prison, on the charge of murdering his wife, has had his sentence commuted to thirty-five years through efforts made by Racine people to secure a pardon.

Damage suits for conspiracy will soon be commenced against ninety-eight citizens of Racine and Kenosha counties by Attorney Henry Wesman, who alleges that an attempt was made to railroad him to an insane asylum.

A Milwaukee railway trap of forty cars, while running on a siding at Florence, on the southwestern division, broke in two. Seven cars loaded with empty beer kegs were demolished in the collision of the front and rear ends.

The University of Edinburgh, Scotland, has conferred the degree of doctor of laws on Hannis Taylor, former American minister to Spain and later of counsel for the United States before the Alaska boundary commission.

# JANESVILLE DEMOCRATS A UNIT ON CHOICE OF PARKER

Opinion as to Excellence of the Selection Is Endorsed by Many Prominent Followers of Democracy.

Parker's nomination pleases the old line democrats of Janesville. He is considered the strongest man; next to Grover Cleveland, by many, who could have been nominated. Men who supported Bryan joined with the men who voted against him in the plea for party harmony and all will unite on Parker. Some of the prominent democrats interviewed report the following sentiment:

E. H. Ryan: "I did not vote for Bryan at either election, but can now cast my vote for Parker and his platform. He is the strongest man that could have been nominated."

D. W. Hayes: "It is a good nomination. I did not vote for Bryan, but I will vote for Parker."

Michael Hayes: "Parker for my choice. I did not vote for Bryan, but will for Parker."

Richard Valentine: "I wanted Parker all the time. Yes, I voted for Bryan and am a democrat."

A. M. Valentine is said to be of the same opinion although he was not interviewed.

The Connors: "Parker is all right. Alderman Edward Connell: "The strongest man mentioned outside of Cleveland."

J. P. Baker: "Parker's nomination is a good one. I did not support Bryan, but am a democrat."

Otto Oestreich was not in the city but is known to be a Parker man.

J. B. McLennan: "I am not enthusiastic over the nomination. I do not like to be ruled by the element of the party that turned the party down when they had a chance of victory. I will not go back on the nomination, however, but like many other democrats I know, am not enthusiastic."

Congressman John Whinnans: "All the democrats have to do now is to go ahead and support the ticket and success awaits them."

C. C. MacLean: "Parker has been my choice all along. I admire the man for being able to keep silent during the pre-convention campaign, and think he is the one man who can cement all the factions of the party together and also have the trust and confidence of the democrats the country over."

P. J. Mount, member of state central committee: "Parker will make a good candidate. Of course I was for Wall, but Parker satisfies me. I am glad Bryan was turned down."

George McKee: "Parker is all right. I did not support Bryan, but I can Parker."

# OLD FOGY HAS HIS USUAL GRIND

THE VENERABLE GENTLEMAN CONTINUES TO FIND FAULT.

## CHOSSES GAMBLING DEVICES

Talks on Saloon and Police Matters—The Old Bore Speaks Very Freely.

To the Editor: Well, the Fourth has come and gone. The nation's great birthday was celebrated with all pomp and glory from the time the cannon was fired from Bunker Hill to the last Roman candle fized skyward on Milwaukee street. It was a great day and one which Janesville people should well be proud of and long remember. The industrial parade was one of the finest of its kind ever given in the city and the circus parade was most laughable. The characters represented were so unique that it seems impossible to realize that the great aggregation who marched or rode in the afternoon parade were business men and society leaders of the city. To the committee who had charge of the day's events the greatest credit is due and the successful outcome of the day's happenings is the result of their careful work and supervision of the events planned.

**On Gambling.**  
I am glad of one thing and that is that no gambling devices were allowed on the streets. It has been whispered to me that permission had been granted to wheels of fortune and other similar devices to run but that the citizens' committee stood firm on this proposition and refused to allow them to reap the silver harvest they had anticipated. Gambling is not necessary to having a good time nor is it conducive to law and order. Janesville gave a celebration which commemorated the nation's birthday and it was not necessary to rob the visitors and send them away angry and abusive of the city's hospitality to make the day a success. The members of the committee who stood firmly on this basis deserve praise and the men who are alleged to have granted permission to the gamblers to operate deserve censure. Gambling did go on unmolested in many of the saloons on that day however, and considerable money changed hands. Nickel-in-the-slot machines coined wealth for their owners and lessees, but they disappeared the next day as if by magic.

**Strange Arrangement.**  
It is a strange arrangement by which the nickel-in-the-slot machines appear and disappear at a nod or a whispered word from some one in authority. Just before closing day the word was evidently passed around: "All is O. K." Out came the machines. They reaped a harvest circus day and from that time until the Fourth, Tuesday morning the tip went round and the machines are now out of sight. I have been told that these machines are owned by a so-called syndicate of men in the city. They are leased to the saloon proprietor and the profits divided. The truth of this cannot be discovered accurately, but it is hinted at. Chicago several years ago had a crusade on just these same machines and the police destroyed thousands of them. Still they run on occasions in Janesville despite the fact that wicked Chicago bars them.

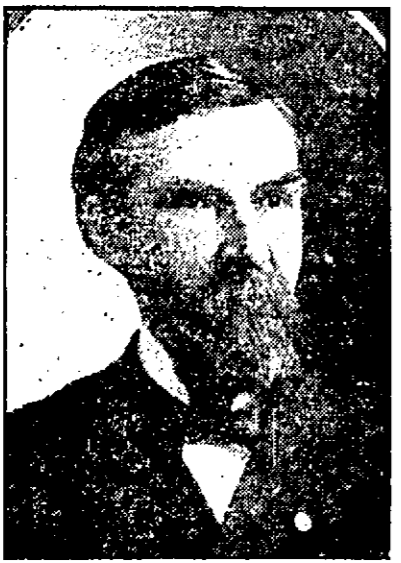

**Saloon Questions.**  
I see that the council stood "pat" on the saloons across the Five Points. They are to be congratulated, for I understand much pressure was brought to bear upon many of the members to allow at least one man to secure a license and that his petition was signed by many prominent men and, as I stated before, by many railroad men. The argument that a saloon is a poor man's club is a poor argument to apply to Janesville when the parks and open country are so convenient. It might do in the city but not in a town the size of Janesville. However, the forty-four licenses granted to saloons are granted to men who know how to conduct such places and if we are to have saloons, and we will as long as the demand for them keeps up, they could not be in better hands. I have heard some talk recently of the saloon men combining to restrict the trade of the druggists in selling liquor in retail quantities. Beloit druggists have had one experience and from personal observation they are very careful just at present. The saloons pay a big license, the druggist a small one and if saloons are to exist they should be given protection for the money they pay into the city treasury.

**Police Matters.**  
Chief Hogan has been much in evidence during the past week. While far from well and strong, yet he still keeps on the streets until late at night and his presence adds material-

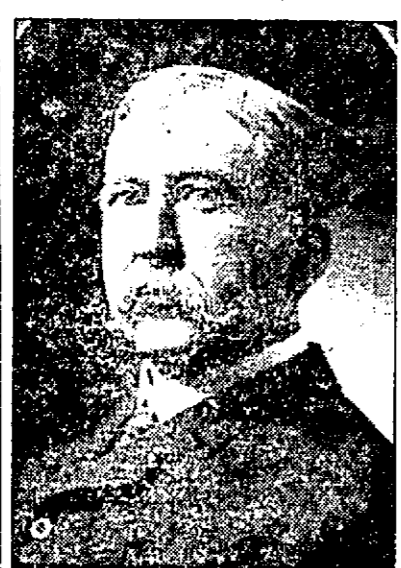

ly to the orderly condition of the city. With proper power during the chief's absence given to some one man the good work could continue. I advocate the office of an assistant city marshal. I am told that under the city charter we cannot have an organized chief of police and assistant chief and a regular police force. If this be true then I should like to see the present force brought up to a standard of excellence that the rights of the taxpayers demand.

**Street Cleaning.**  
Under the management of Street Superintendent Watson, the Janesville streets are being kept in exceptionally good condition. With the means at his disposal the street superintendent manages to do a lot of work and his corps of "white wings" are busy all the time. While the sewerage disposal system passed by the council some time ago has not yet been installed, still the alleys are looking better than for many summers past. This may be due to the fear of the power of the health officer and the energetic manner in which he began his regime or not but still the work of keeping this important adjunct of our city in good condition is being fairly well attended to. Complaints that the rubber-tired vehicles are being damaged by the loads of rough stone that have been dumped on several of the streets where repairing is being done have been heard, but this will all come out in time, and the streets be all the better for the delay in finishing them.

**THE NOMINEES**  
For Governor, Samuel A. Cook, Neenah. Samuel A. Cook of Neenah, candidate for governor, was born in Ontario, Canada, in 1819. His parents were of that sturdy type of Canadians who craved for self-betterment and who joined the first band of immigrants who came west to settle in the states. Samuel A. Cook's father found his permanent home in Calumet county, near the shore of Lake Winnebago. When the Civil war broke out Samuel became one of the famous Custer's cavalry fighters and returned to Calumet county with an excellent war record. Shortly after his

**SAMUEL A. COOK**  
return he was married to Miss Jennie Christie and together they went to Italy in Marathon county to make their home, later on removing to Neenah. In 1888 he was chosen mayor of the city by a large majority. In the following year he succeeded in carrying his district against the democrats in the contest for a seat in the legislature, serving faithfully. In 1892 he was one of the delegates to the national republican convention at Minneapolis and two years later he became a candidate for congress for the sixth congressional district. When in congress he made an enviable reputation in the fight for the "anti-filled cheese" bill, which restored Wisconsin her prestige as a cheese making state. Upon refusing the renomination for congress tendered him by the republicans of his district, he entered into the active conduct of his lumber and paper mill interests, which he has since continued. In 1898 Mr. Cook received the second highest number of votes in the contest for the United States senatorial seat. There were five candidates in all. The republican state convention on May 10 unanimously designated Mr. Cook as candidate for governor. Lieut.-Gov. George H. Ray, La Crosse, George H. Ray of La Crosse, candidate for lieutenant governor, was born at St. Stephens, New Brunswick, October 4, 1847. He was educated in

**GEORGE H. RAY**  
the common schools at St. Stephens and came to this country at the age of 18, residing at Rockland and Gardner, Maine. During his residence at Gardner he served two years on the city council. He came to Wisconsin in 1878, since then having resided in La Crosse, in that county he has served six years on the county board and has been president of the State Bank of La Crosse. For three terms he was elected to the assembly. In 1894, 1896 and 1898. During 1899 he was chosen speaker of the forty-fourth assembly and in the next election (1900) was returned to that body, again being chosen speaker. In 1902 he was again elected to the lower

house by a large majority over the democratic candidate. Mr. Ray was unanimously chosen as candidate for lieutenant governor by the republican state convention May 19.

It was stated there are 50,000 boys in the boys' department of the association in the United States and Canada. In the educational department there are 1,000 boys. Outing camps to the number of 250 were held the past year and in all 5,000 boys camped out. In this country and Canada a daily average of ten thousand boys attend the Y. M. C. A. buildings.

# POTATO BUGS ARE NOT SATISFIED

Paris Green is Not the Kind of Liquid Refreshment That They Like.

Paris green is now in much demand for the suppression of potato bugs. Bugging parties are quite stylish now and are largely attended by both people and bugs. Ninety per cent of all the bug poison sold is Paris green. London purple does not "faze" the bugs, they being so strongly attracted to "fish" potatoes and not caring for anything as English as London purple.

Druggists find it almost impossible to keep a supply of Paris green on hand, the demand being so strong. Last year the demand was small, but this year the bugs are out doing campaign work. A tablespoon full of the poison is used in a gallon of water and sprinkled on the infested vines.

Weather conditions were never more favorable to getting out a tobacco crop than those which have prevailed thus far since the transplanting season commenced, says the Edgerton Reporter. Were it not for a shortage of plants in a few localities the crop would have gone in to the fields in less time than any previous one in the history of the state. Cool weather that has invariably followed the frequent and timely showers has proven exactly suitable for getting an early rooting of the plants so there has hardly been any check in the growth from the plant beds to the fields. Such ideal conditions have given an almost perfect stand in the fields and an even growth from the very start. Many of the older growers assert they have never seen a better time for transplanting or getting a crop started in the fields with so little trouble or expense in fitting their tobacco lands. Despite all the delays in the early spring with the seed beds, the crop has a far better start than the average season at this date, while the early settings promise to be exceedingly forward, under anything like ordinary conditions from this time on.

**Janesville.**  
The tobacco market in this vicinity got real busy during the past six or seven days and some old-time transactions were closed and not a few are pending a final end. With some very good tobacco planting weather it has put everybody interested in the leaf in a most pleasant mood, and it is now claimed that there remains but a very few fields that are not completed, and what has been planted is making remarkable headway.

The large fire in the Howe Bros' cotton batting factory here early Monday morning caused an extensive loss to L. H. Carl & Son, whose large warehouse adjoins the factory. The damage is in the nature of smoke and water. It is claimed their damage will reach nearly \$2,000, but not until the adjusters have visited the scene will the exact figures be known. Fisher & Fisher started the market moving this week by selling 1500 1901, choice binder grades, L. B. Carl & Son 1000s of 1900-2 and bought a 3000s lot of the same years. J. A. Ryan sold a 500s lot of 1901-02, and Geo. H. Humrill sold 2600s of 1902. Mr. Humrill received five cars of the 1903 at Madison on Friday of the past week and will receive six more there on Friday of this week and two at Whitewater on Wednesday.

Fifteen hundred cases of 1902 leaf are being sampled at the Sylvester Bros' warehouse this week, the work being done by Rusler & Co., of New York.

Joe Gans, of Joseph Gans & Co., New York city, was a visitor here on Monday.

**Edgerton.**  
The buying movement is gradually closing in and but comparatively few dealers are now riding the country circuit and even those complain that desirable lots are becoming harder to find. There is but little change to note in prices which are very largely for assorted goods.

Quiet times have settled down upon local cured leaf markets and sales are confined to moderate-sized lots. Warehouse handling of last season's crop has about closed at most of the packing points. Some rehandling has commenced and stripping of low grades is likely to claim employment of a good deal of the help during the summer.

Transplanting of the new crop is practically completed in most sections and rarely has the crop had a more promising showing at this date. Recent rains have helped secure a fine start of the young plants in the fields.

The shipments out of storage continue light not exceeding 2000s for the week to all points from this market.

# LAND TRANSFER VERY IMPORTANT

Slaymaker Farm Near Beloit Is Sold to an Oregon Man for Large Sum.

One of the largest real estate transactions in this locality this season is the sale by George O. Yeiser of the farm known as the S. H. Slaymaker place to Wesley Guyning of Oregon. The farm consists of 320 acres and fine buildings, situated near the city of Beloit on the Clinton road. The consideration was \$25,000, but was heavily encumbered. Mr. Guyning, the purchaser, will make his home at the farm. He is a person of considerable means and has the reputation of being a very successful farmer.

# THE COLORADO SPECIAL

Chicago, Union Pacific & North-Western Line.

This solid through train, only one night to Denver, will, beginning July 10th, leave Chicago at 7:00 p. m., reaching Denver next evening at 9:00 o'clock. A perfectly appointed train. Another Colorado train leaves Chicago daily at 11:00 p. m., arriving Denver early the second morning. The route of these trains is over the only double-track railway between Chicago and the Missouri river. The best of everything.

**The Chicago-Portland Special**  
now leaving Chicago 10:30 p. m., will, beginning the above date, leave daily at 11:00 p. m., with through sleeping car service to San Francisco, Los Angeles and Portland. Low rates now in effect daily. Ask ticket agents for particulars.

Demanded by Thoughtful Readers.

Officials and journalists in Washington imagine that they strongly dominate the politics of the nation, and to an extent that is true.

The representative and senator when in his home district and speaking publicly or privately to his constituents almost without exception discusses his own movements, and public questions from his biased point of view, coloring his statements as vividly as facts will permit, and, sometimes, alas, beyond.

The newspaper correspondent at Washington does likewise. He writes for papers of a certain political party, and from that side only. Frequently he colors up his dish of "news" from a rich fund of imagination, trusting to the next day to "correct" the first "rumors."

All this has taught the often-deceived public to hear and read with growing disregard and unbelief. The thoughtful reader prefers to "wait for facts" before admitting judgment at his own hand. Yet there are many unwise, irresponsible, childlike readers of big scare-heads of certain city papers that will read and wonder, then tell their friends of the "news," as news, when, next day, fact may destroy absolutely the foolish conclusions.

Still, it remains true that a false report can never be entirely wiped clear of the mind. In times of great public excitement over a departmental investigation, or a congressional inquiry, a false coloring given to an alleged discovery may work irreparable injury to individuals or to the cause of good governments.

As a certain congressman said, with reference to the exaggerated reports which had gone out concerning congressmen with the postal scandal: "You may go and wash yourselves in all the pools of forgetfulness this side of Shiloh and you will never wash this stain out of the public mind." All this shows how important it is that the citizens avoid reading the alleged "news" of yellow journals, or even big, black headlines of distorted reports call "Come and read this, true or false, and get a sensation; build your house of knowledge on a foundation of rotten stuff, and make yourself a laughing stock when you attempt to discuss events."

Thank fortune, public opinion is growing stronger each day against the yellow journal and its misleading "news." During a silence in a crowded waiting room a man said to the attendant: "Give me a paper, please." "Which one?" "Oh, the —," naming a "yellow," whereupon a groan of disgust went up from a dozen throats, and the man flushed deeply with the sense that his selection of a paper displayed his rank stupidity in so public a manner.

It is manifestly impossible for any man to formulate correct conclusions unless he be possessed of the facts on both sides of the question. The impulsive, wilful mind wants to believe or listen only to statements favorable to its own wishes, but such minds do not rule the world. Cool analysis, consideration of both and all sides, is absolutely essential to correct and safe conclusions. It is the ambition of every right-minded editor to see how good a paper he can make, and he makes a tremendous mistake when he permits sensationalism to disturb his facts. People will discover it and turn to papers upon whose columns they can rely.

The Sentry would like to see the following motto printed at the head of newspapers, and the policy adhered to: "Tellable news facts from which accurate conclusions can be formed."

It is the mission of The Sentry to supply facts relating to public questions and measures and to discuss remedies for existing evils, to the end that the thoughtful citizen may act intelligently when the time comes that his voice should be heard in the directions of the affairs of the great nation of which he is one of the rulers—a fact which he should never forget, and the responsibility of which should and will, if appreciated, bring out the pure gold of his character.

# BADGER DRUG CO.

Explain Why Paracamp is a Safe Speedy, Certain Cure.

It is Safe—Because Paracamp is prepared only from high-grade refined Camphor, the remedy of our grandmothers, combined with pure, soothing essential oils, and being an external remedy cannot in any way injure the delicate tissues lining your stomach or splanter and ruin your nervous system like many strong drastic internal remedies for the relief of Rheumatism, Neuralgia, Catarrh, Rheuma and Piles.

It is Speedy—Because when applied it opens the pores of the skin promptly and penetrates directly to the seat of the pain, whether in the Muscles, Joints or Diseased Membranes.

It is Certain—Because when it reaches the seat of the ailment it immediately soothes the aching, inflamed parts, removes the congestion and draws out all fever, soreness and inflammation by inducing sweating; it destroys the germs and sweats out the disease. This is the only safe and sure way.

We do not hesitate to guarantee Paracamp to cure Rheumatism, Swelling, Neuralgia, Catarrh, Throat Troubles, Rheuma, Tetter and Itching or Bleeding Piles, because many of our Customers report to us daily that they have been cured by its use and furthermore because we know that Paracamp will do exactly what the manufacturers claim for it. Paracamp is a clean, safe, household remedy which every family needs every day in the year. It is truly a First Aid to the Injured and should be kept in every home. If you have not used it try Paracamp to-day on our guarantee to return money if it fails to do what we claim for it.—The Paracamp Company, Louisville, Ky., U. S. A.

## VERDICT OF THE PARTY

From the report of the Committee on Credentials to the REPUBLICAN NATIONAL CONVENTION, which was unanimously adopted by that convention, June 22, 1904.

Your committee report it to be their final judgment that the convention which elected said John G. Spooner, J. V. Quarles, J. W. Babcock and Emil Baensch as delegates at large, and their alternates at large, to this convention from the state of Wisconsin WAS THE REGULAR CONVENTION OF THE REPUBLICAN PARTY IN WISCONSIN, and that the delegates elected by it are the regular elected delegates at large from the state of Wisconsin to the republican convention, and, as such, are entitled to seats in this convention.

## OUR SATURDAY NIGHT.

Two men were standing at the corner of Main and Milwaukee streets the other day, watching the Nonesuch Brothers' procession. One of them said:

"I don't see any sense in that kind of a performance, and am glad I haven't any money invested in a Fourth of July celebration," to which the other assented and replied:

"Yes, those fellows act like a lot of kids and I suppose think they are smart."

These men represent a limited class, to be found in every community, who have gone to seed twenty years before their time.

It was nothing to them that thousands of visitors were attracted to the city and that hundreds of dollars were spent in their entertainment. The month of hard work on the part of scores of men to make the day a success counted for nothing, for they were chronic kickers, and out of their element, when not exercising the divine right to find fault.

The Fourth of July celebration was a credit to the city, as well as to every man who contributed in any way to the pleasure of the occasion. It was a patriotic demonstration, free from politics or partisanship, and worth every dollar that it cost, in the development of good fellowship.

It is worth something to know that the town possesses both the ability and inclination to provide such an entertainment.

The city enjoys an enviable reputation throughout the northwest, on its Fourth of July programs, and both Chicago and Milwaukee were represented by interested spectators last Monday.

But how about the kickers? and what is there about a Fourth of July celebration that should invite protest? Janesville has long suffered from this class of citizens, and the city would have a population of 30,000 today if everybody had been willing to lend a hand, instead of blocking the wheels of progress.

It was not so many years ago when intelligent efforts were made to open up Spring Brook as a manufacturing district. The plan was hardly under way when rivalry or jealousy

prompted the location of similar industries near the cemetery, at Bunker Hill, and in the vicinity of the School for the Blind.

As a result energies were scattered and failure followed. Hundreds of acres of farm land were platted and sold for building lots at fancy prices, which have since been sold for taxes. If the capital and energy had been concentrated at Spring Brook, the most natural manufacturing district in the city, the flat south of the city would have been covered with factories ere this, and a suburban town like South Rockford built up.

This scrap of history is not so ancient as to be forgotten. Many men who invested in lots, are vividly reminded of the fact, and if the experience was to be repeated some difficulty would result in finding suckers to add in the enterprise.

It is gratifying to know that this spirit of rivalry has largely disappeared. Spring Brook is now recognized as the factory district, and if nothing prevents, it will be a thriving suburb in less than five years.

Janesville manufacturers and business men are learning to pull together. There was a time when any man who showed evidences of prosperity, was regarded as an enemy to the town, and it was somebody's duty to see that he was stopped in his mad career. But those days have passed to large extent.

The man who can make money in Janesville, is a friend to the city, and entitled to every encouragement.

The Fourth of July celebration interested all classes and all ages, putting the city in touch with its resources and showing what can be done by united effort.

The same spirit has entered largely into business enterprises during the past few years, and the disposition to pull together is more general today than ever before.

The best sugar factory, now in process of building, is one of the tangible results of harmony, and the first complaint has yet to be offered as to location.

The people are enterprising and when energy is directed into a single channel, for the public good, results are never disappointing.

The sugar industry, like the tobacco industry, means much for the county. It means garden patches of from five to ten acres, scattered over the county producing, in many cases, larger returns than the balance of the farm and contributing not only to substantial wealth, but furnishing ready money in liberal amount.

This means more to Janesville than simply a new industry, for it is the market town, and may be made the trade center, if the business men take advantage of new conditions and work together to make it an attractive market.

The Gazette will be pardoned for suggesting that nothing helps a town or a business, so much as publicity. There were hundreds of people in the city last Monday who know but little of Janesville.

They went away with a good impression of the place. The thing that induced them to come was the advertising, and the good impressions were the result of well directed efforts to entertain, that more than satisfied.

The merchant reaches similar results, on a smaller scale, in the same way. The dry goods or clothing announcement, of a bargain sale, that attracts buyers from the country, is a direct benefit to other lines of business.

The fact is generally recognized that Janesville is the best market in the county. This fact will be more thoroughly appreciated, and results more satisfactory, when every line of business is given the publicity to which it is entitled.

The mail order house can be kept out of the field, when the home houses occupy it, and this can only be done by constant and persistent advertising.

The wealth of the county is increasing, and the trade of the county seat city should increase in proportion. This it will do if the business men will unite in a progressive campaign, and pull together as they did last Monday.

## PRESS COMMENT

Evening Wisconsin: The democrats say that Roosevelt himself is to be the issue in this campaign. This is assurance that the campaign will be fought over a live issue.

Madison Journal: A long period of warfare has made the existence of the Free Press possible. To be sure chills and fever explained by a bad digestion is hardly a journalistic triumph.

Milwaukee Sentinel: William Randolph Hearst will have the distinction of being one of the youngest, as well as the least fit, of all the American citizens who ever aspired to a presidential nomination since the foundation of the government.

St. Louis Globe-Democrat: Six months have elapsed since the Ironquills are in Chicago. How many cities have succeeded in providing their inhabitants with safe theaters?

Superior Telegram: When a man consumes sufficient cocktails to make the bartender the repository of his family secrets, he has drunk all that is good for him.

Ashland Press: Robert Methe, wholesaler La Follette, William Jawbone Bryan and Aguilado have bought Devil's Island in Lake Superior and will make that their headquarters hereafter.

Clinton Banner: The 11:20 took about one hundred from here to witness the celebration at Janesville,

which was good, especially the fireworks. The ball game which took place between the Maroons and the Commercial League team of Chicago, resulted in a victory for Clinton with a score of 1 to 0.

Green Bay Gazette: The populists have gone back to their first love, Tom Watson, of Georgia. He was a populist before Bryan was known to fame and would have been the presidential nominee in 1896 had not the democrats gone off on a tangent and fused with them on Bryan as the head of the ticket campaigning on a genuine populist platform.

Chicago Chronicle: Democrats who know a little about the attitude of their party on the subject of expansion in the years when expansion was a democratic idea will note the fact that whereas the majority of the delegates at St. Louis appeared to be in favor of a sensible policy in the Philippines the delegation from those islands protested vehemently against being scattered. They want to be American citizens, like other democrats.

Boston Herald: The evident desire and intention of several of the magazine editors of our land to raise the standard of the matter appearing in their periodicals is something that will be most heartily commended by the better class of readers. So much "vandalism" literature has been in vogue for some time that the public is about ready to receive a polite, proper story, told in good, clean, correctly spelled English, as a genuine novelty.

La Crosse Leader-Press: Mr. Bryan and the stalwarts agree that Governor La Follette is now out of the republican party. The proceedings at St. Louis indicate that Mr. Bryan himself is barely under the edge of the democratic tent and that he may crawl out or be pushed out before the show ends. It may become necessary for Mr. La Follette and Mr. Bryan to hitch up together and form a party all their very own.

San Claire Leader: Gov. La Follette does not cut a very insubstantial figure in the eyes of the people of Wisconsin just at present. When he had all possible apparent advantage, derived from the illegal action of his party at the state convention, he showed a bold front and gave indications that he would fight to the finish, but his action since the Chicago convention shows that he is loud in promise but faint in performance, and that when the chances are uncertain, instead of facing the cannon's mouth he is to be found in the rear with the baggage.

Racine Journal: Despite all the pessimistic talk, railroad building for the first six months and railway earnings are very little behind, if not equal to the figures of last year. It is stated that revised figures of earnings will bring up the figures to those of the previous year, and that the new miles added to our system of railroads will easily reach 5,000 for the year. The railroad building for the first six months is reported to have been 1,937 miles, by 134 companies.

Appleton Post: It is evident that the veteran editor of the Evening Wisconsin, believes with Bishop Horne and as all many men should believe, that "it is better to wear out than to rust out." Here is what he said on the occasion of his departure for his summer home: "William H. Cramer, the editor-in-chief of the Evening Wisconsin, has gone to his country home in Marinette county to spend some weeks. He does not intend to be idle, but to continue as active as if he were in Milwaukee. He considers the present state of affairs the most important in the history of our commonwealth, and therefore he is profoundly interested in a canvass between the present mischief-making and business-destroying governor, who represents the Third-Term principle in our politics, and the republican ticket nominated at the Fuller Opera house in Madison, on May 19, which has sustained unanimously by the convention of the republican party of the United States."

Rice Lake Leader: The publishers of the Leader wish to say a word relative to public entertainments and the "free advertising graft." It is the policy of the paper to "speak out in meeting" and in this particular we think we are justified. The space of a newspaper is the only stock in trade of the publishers, yet they are called into service to tout the horn of publicity and devote column after column gratuitously for all public entertainments from a pink tea to a Fourth of July celebration without receiving even the courtesy of a "complimentary." We have waited patiently for years in hopes that the promoters and management of public functions would become educated to their duty toward the press, the same courtesy that is recognized and extended in other places. But not in Rice Lake.

Electric Co. Troubles: At the Monterey power house of the Janesville Electric Co. one night this week the shafting broke and later on there was an accident to the machinery at the upper power house. Much of the power has been supplied by the Fulton plant.

## MOMUS TO HAVE ONE MORE WHIRL

LATE NONESUCH CIRCUS TALENT REFUSES TO DISBAND.

### A "MIDWAY" AT GOLF LINKS

Is To Be Set Up for the Afternoon and Evening of July 26—Committees Appointed.

Troubadours, masters of the dance, showmen of the strident voice, tapers of wild animals, fortune tellers who discern the future in the palms, mind readers, hypnotists, magicians, guides for the crystal maze—all the historic talent of Janesville is to be summoned together again on the 26th of July for a combined production of the St. Louis Pike, the Chicago Midway, and the Paris Boulevard de l'Est, at the Shinnelshill golf links. Momus, god of mirth, refuses to be shelved for the summer without one more whirl.

**Golf Club Benefit.** The discovery of the petrified body of a giant aborigine on the farm of P. D. Quack in the town of La Prairie by workmen excavating for a well on the morning of the fourth is said to have given impetus to the movement which has now been taken up in earnest, and there is every indication that the avenue of tented side-shows on the links will offer attractions which amaze and delight a gaudy multitude on the afternoon and evening of the last Tuesday of the month. The proceeds will be used in raising the debt of the golf club.

**Committees Appointed.** At a meeting held last evening the preliminary plans were made and some of the committees and officials who are to be in charge were selected. George M. McKee was made general chairman; F. H. Jackman, secretary and treasurer. C. C. MacLean consented to take charge of the tents. F. E. Fifield will have supervision of the platforms and lights; Miss Agnes Shumway of the decorations; Al Schaller of the music; Charles B. Bostwick of the amusements; J. P. Baker is delegated to make the necessary arrangements for transportation and H. H. Bliss will have charge of the department of publicity. Mrs. A. J. Harris will have charge of the refreshments.

## INSURANCE CO'S. TO PAY ABOUT \$20,000

Adjusters Finished Their Work at Cotton Mills Today—Proof of Loss Ready Monday.

The insurance adjusters finished their work at Howe Bros. building, twine, and mattress factory today and the proof of loss will probably be made out the first of next week. The amount of insurance allowed will be about \$20,000, including \$975 for the twine mill.

### CURRENT NEWS NOTES

**Did Good Business the 4th:** Supt. Murphy of the local street railway reports a total of 3,700 paid fares taken in by the company on July 4th. This is considered a very good day's business for the company, considering that most of the attractions during the day were in the business districts. The only street car attraction was the baseball game at Athletic park.

**Man With a Gun:** From the home of John Peters on Fourth avenue yesterday afternoon a telephone message was sent to the police stating that a dangerous looking man armed with a revolver was in the neighborhood. Officer Bencke visited the scene but the tramp had beat a retreat. The police are making short work of getting tramps out of town.

**Killed Diseased Cow:** A valuable cow on the farm of John Wikom in the town of Harmony had become infected with tuberculosis and was slaughtered at the instance of State Veterinarian Roberts this morning. L. L. Fletcher, C. C. Brewer, and Will Sawson were appointed as a committee to award damages to the owner for the loss of the animal.

**Presented With Cigars:** The Members of the Janesville Fire Department were presented with two boxes of cigars today with the compliments of the Rock River Cotton Company, showing the appreciation of the firm for the good work done by the department during their recent fire.

**Fire Escape Shipped:** Word has been received in the city that the fire escapes for the city hall will arrive in the city the first of the week and will immediately be put in place.

**By Wireless Telegraphy:** It is currently reported at St. Louis today that the nomination of Parker was brought about by the presence at the convention of a Janesville man and that he will be rewarded by the ambassadorship to the court of St. James, providing he can induce Tammany of which ring he is a member, to vote for the democratic nominee.

**Baseball:** This morning at Athletic park the Fifth Ward Juniors again defeated the Fourth Wards by a score of 25 to 5. The lineup: Fifth Wards—Louis, c.; Grimsby, 2b.; Shleker, 3b.; Fox, 1b.; Klusky, 2b.; Hennessey, ss.; McCaffery, cf.; Kelly, 1b.; Erdman, p.; Fourth Wards—Spaw, c.; Hops, 1b.; Gilks, ss.; Leonard, 2b.; Cook, 3b.; Smith, 2b.; Rider, cf.; Ryan, cf.; Fifield, 1b.

**Loani Band Picnic:** The Loani band of the King's Daughters of the Congregational church will meet Tuesday evening with Miss Irena Koller, 251 South Jackson street. A picnic supper will be served on the lawn at 6:15. If the weather is unpleasant the meeting will be held in the house. **One for Each Day:** A total of 365 dogs, one for each day in the calendar year, have been licensed to roam at large on the streets of Janesville. Mrs. Kimball Better: The many friends of Mrs. Kimball will be pleased to know that she is somewhat better today. Dr. Chittenden stated this afternoon that she passed a good night, and seemed to be holding her own throughout the day.

## DR. WOODS TELLS OF SLOCUM HORROR

Was Present With Mrs. Woods in New York City When Disaster Occurred. Saw 500 Dead.

Dr. and Mrs. E. F. Woods returned Saturday from an extended eastern trip. Dr. Woods took a post graduate course in Atlantic City and later, with Mrs. Woods, visited in New York city. They were in the metropolis when the terrible disaster to the steamer Slocum, in which 1,080 lost their lives, occurred. Mrs. Woods was at St. Sinal hospital near 100th street, when the call for ambulances came and the attendants she distinctly saw the smoke of the burning vessel. Dr. Woods later visited the Bellevue hospital and the morgue nearby and saw 550 bodies placed there at one time. Some of the most pitiful sights he had ever witnessed came to his notice. The dead bodies of women, some with two children in their arms and faces burned beyond recognition; the presence of distracted husbands and fathers, two of whom in many instances claimed the same dead, added to the horror of the scene. One whole district in New York city from 7th to 13th street and from 1st to 3rd street was depopulated of its women and children and crepe hung on every door.

**Waists at the Old Fleury Store.**

**J. M. Bostwick & Sons' great sale** of undermuslins and shirt waists which began this morning at the old Fleury store demonstrates the power of truthful advertising in a dull season. People found the garments even better than were advertised and there was a snap to the buying that gave evidence that women appreciated the bargains. It is a rare opportunity to economize. Sale continues all next week and there are enough garments to supply an army of buyers. The window displays deserve special mention and give one some idea of what is on sale.

**Two Ways**

There are two ways of securing votes for the world's fair trip which the Gazette offers; one is by clipping coupons from papers; the other by securing new subscribers to the Gazette. The first way is slow; the other turns them in with great rapidity. A little time each day spent among your friends will accomplish wonders. The trip is worth the effort.

**Returned to St. Paul:** Chief of Police Hogan left last evening for St. Paul for treatment from the specialist with whom he is doctoring.

## NEW POTATOES STILL CHEAPER

Ten Cents a Bushel Knocked Off From the Price—Cherries Sell Well.

New potatoes were cheaper again yesterday and the prices are getting to a reasonable point. Ten cents per bushel were knocked off the wholesale and retail prices and the best are now selling at \$1.50 per bushel, or 40 cents per peck. The growers in the vicinity of Janesville are making good deliveries and the potatoes are of good quality. Many of the farmers who have large fields of tubers will be in the market next week, and the prices will then possibly get down still lower, though there is good prospect that the wholesale price will remain at the dollar mark for some time yet.

There were lots of the late cherries marketed yesterday, but the merchants barely had time to get them from the wagon to the store before they were sold. The late cherries are proving fine and they are at a price that compares much cheaper than the earlier fruit, and they are finding better sale. There were few other changes in the markets yesterday, and now the men are busy preparing for the next lot of goods to be marketed.

## TO LOAN BOOK TO THE LIBRARY

Stanley D. Tallman Has Many Interesting Autographs Collected by His Father.

Stanley Tallman has in his possession an interesting autograph album which contains the signatures of many of the men who have made the history of the United States. The book was the property of Mr. Tallman's father, Edgar D. Tallman, and was secured by him during the Civil war while he was stationed at Washington as one of the registers of the treasury under President Lincoln.

Among the names found within the covers are those of the two Wisconsin senators, J. R. Doolittle and T. C. Howe. John S. Carlisle of Virginia, M. C. Ten Eyck of New Jersey; J. H. Whitney of Rhode Island, Lyman Trumbull, the famous anti-slavery advocate; S. C. Pomeroy of Kansas, noted as the advocate against making that state a slave state; Andrew Johnson, afterwards president of the United States; John B. Allen of Massachusetts; C. B. Biddle of Pennsylvania; Jacob Blair of Parkersburg, Va.; Erasmus Corning of Albany, N. Y.; Roscoe Conkling of the same state; Clement S. Vallandigham, who caused such a troublesome time in Ohio, and many other congressmen and senators' signatures are found. Mr. Tallman is going to send this valuable little book to the state historical society at Madison as a loan.

## TIME TO DENVER IS TO BE CUT DOWN

The St. Paul Road Will Reduce the Running Time by Three Hours.

With a new time card, effective Sunday, July 10, the Chicago, Milwaukee and St. Paul railway will eliminate two hours and forty-five minutes from the running time of passenger trains between Chicago and Denver.

Under the schedule that has been prepared, the Overland Limited train, operated jointly by the Union Pacific and the St. Paul, will reduce its time between the two cities from twenty-eight hours and forty-five minutes to twenty-six hours.

The distance between Chicago and Denver is considerably over 1,000 miles, which means a rate of about forty miles an hour for the entire distance.

Eastbound the time will be cut even deeper than westbound, three full hours being eliminated from the schedule between Denver and Chicago.

By the arrangement the Overland Limited of the St. Paul road will leave Chicago at 6:05 p. m., and arrive in Denver at 8 o'clock the following night. Eastbound the train will leave Denver at 4:20 p. m., and arrive in Chicago at 9:55 p. m. the next day.

To line up with the new schedule the train now leaving Chicago at 9:45 a. m. will be operated only as far as Omaha, and its leaving hour from Chicago will be changed from 9:45 a. m. to 7:15 a. m. The reduction in time between Chicago and Denver makes the St. Paul a central figure in the transportation world between the east and the Rocky Mountains.

### POPULAR CONCRETE BLOCKS

Used Extensively by Builders

Throughout the State.

Hollow concrete blocks, manufactured in Janesville by the Rock County Concrete Stone Co., are recognized by contractors and builders all over Wisconsin as the coming building material. During the past week E. B. Clark of Fort Atkinson was in the city and ordered concrete blocks for a new residence. Mr. Clark formerly lived at Sioux City, Iowa, where concrete blocks are extensively used for fine residences and public buildings. Buildings constructed from the new material are cooler in summer and warmer in winter because of the hollow air space in the construction of the blocks. They are more economical to use and far more handily than any other known material. A bank at Oakfield, Wisconsin, has also ordered the popular blocks for its new home.

We desire to thank the many kind friends who presented flowers and assisted us during the illness and death of our father.

MARY HUNT, ELIZABETH HUNT, JAMES HUNT.

### NEWS OF A PERSONAL NATURE

Edward Timmons of Chicago, a recent graduate of the Chicago Art Institute, is visiting friends and relatives in the city.

## HIGGINS PAYS FOR AN ABUSIVE TONGUE

Thomas McKenna Will Do Penance for an Extended Fourth of July Celebration in Jail.

In municipal court this morning, Justice Earle presiding in the absence of Judge Fifield, John Higgins of Fulton, who was arrested on complaint of Charles Campbell, a neighbor, for addressing him in abusive language, pleaded guilty to the charge and was sentenced to pay a fine of \$10 and costs amounting to \$5 or spend fifteen days in the lock-up. He paid the fine and costs. Thomas McKenna who was not content with one fourth of July but strove to extend the carnival several days on a prolonged spree was fined three dollars and costs, amounting in all to \$4.40. In default of payment he will spend five days in jail. The trial of W. H. Bilven of Fulton, charged with desertion by his wife, Zella Bilven, was continued until Monday.

## RUBIN OF MILTON PLEADED GUILTY

To First Count of Grand Jury Against Him for Selling Liquor Without License—Fined \$75.

Albert H. Rubin of Milton, indicted by the grand jury on three counts for selling liquor without a license at the little tavern which he conducted near the railroad station, and released on bail until the fall term of the circuit court, was surrendered by his bondsmen and appeared in court yesterday with a petition that the counts be severed. This was granted and the defendant pleaded guilty to the first one. On his plea Judge Dunwiddie fined him \$75 and costs and the money was paid. The other two counts are for the same offense on different dates and still stand against him. District Attorney Jackson conducted the prosecution and Smith & Pierce appeared for the defendant.

## ARE SETTING BACK THE EMPLOYEES

Engineers on the Chicago & Northwestern Back Firing Again.

The heaviest blow that has yet struck among the many railroad men employees of the C. & N. W. in Belvidere since the recent policy of concentration was begun, has been announced. It is no less than an order for the reduction of between thirty to forty of the younger engineers on the system out of Chicago, back to the coal shovel. This order will probably affect no less than a dozen of the younger engineers living in this city. This concentration is felt all along the line, of course. The place of the firemen will be rendered more insecure and under the present conditions it is likely that an equal number of men now firing will have to give way to the pressure from above which will throw them out of work entirely.

## TO PLAY MADISON WEEK FROM FRIDAY

Captain McGiffin and Team Hope to Win Second Victory—Rockford Here Friday Next.

On July 22, one week from the coming Friday, the Janesville golf team under Capt. McGiffin, will visit the links at Madison and attempt to win another victory over the Capital city players. It is expected that a formidable array of local talent will participate in the pilgrimage. Rockford's visit here next Friday is awaited with many anticipations. Besides the gentlemen players many ladies are expected and every indication points to a gala day at the links.

## HANDSOME BALLET GIRL IN OILS

Presented to Manager Myers by the Decorating Firm of Mitchell & Halbach—To Hang in Office.

Manager Peter L. Myers is the recipient of a handsome gift from the decorating firm of Mitchell & Halbach of Chicago. It is a handsome oil painting of a ballet girl from the brush of one of their artists and will be framed and hung in the vestibule of the theatre with electric lights arranged in such a manner as to best bring out its splendid colors. The large portrait of Peter Myers, Sr., which has long ornamented the sounding board of the opera house has been taken down and will also be hung in the vestibule. This portrait is six feet in height and besides its sentimental associations has an intrinsic value of several hundred dollars.

## SEEK REMNANTS OF TEN LOST TRIBES

Who Are to Inhabit Earth for a Thousand Years After the Last Trump—"Israelites" Leave Monday.

T. F. Atkins and M. Gile the two "Israelites" from Benton Harbor, Mich., who have been conducting open air meetings in the city report an attentive and interested audience last evening. They will remain here until Monday, after which they will go to Madison and later to St. Paul and Minneapolis. They say that they are not seeking converts in the accepted sense of the word but are in search of the wanderers from the ten lost tribes of Israel, the 133,000 mentioned in Revelations, chapters 7 and 13, who after the last trumpet shall sound are to live on the earth for a thousand years. Necessarily, the remanence of the members cannot be traced but each is to know whether or not he has descended from the lost peoples to which such promises were given by the inner voice that sometimes whispers to the soul. This is the only divining rod relied upon. The "Israelites" wear their hair long because it is a token of their faith that when it is absolutely necessary. The visitors here take up no collections. Their only revenue is derived from some tracts which they sell.

We take opportunity of calling your attention to the fact that if your property is located on the proposed city sewerage extension of this year, it would be well to place your order for service connection with us now. We are receiving orders every day and can give a most satisfactory service to a large number of patrons at the same time.

Too great care cannot be exercised in properly connecting the house with the main sewer—there is chance for unsanitary conditions. We install this class of work carefully and scientifically, and will be pleased to make your estimate.

## CHAPTER XIX.

### THE RIDE TO SILCON PASS.

THE people of the village swarmed to look at the strangers, who seemed to be of a race they looked upon as enemies, yet their chief, Palpak, treated these men as friends. Palpak was a chief who gave no explanations of his acts, and when he demanded horses for himself, his brothers and his friends they were at once forthcoming.

Domitian, the brother who had been so eager to kill Palpak, was morose and showed but little favor to the guests. The latter, confident that their plans would be successful, treated him considerably. They thought not of the risk they ran in going, with robbers for escort, into a country from which few travelers had ever returned. The moving power was love, and love laughs at danger.

From the village a winding path led from the low shore land to a distant range of hills. Along this their progress was rapid; but, arriving at the hills, they found a rugged, rocky road over which traveling was slow. The small horses of the Zannucks, were sturdy animals and went unshod over the jagged stones that covered the narrow path.

The natives stared at them in amazement. A Russian officer in uniform, accompanying their chief on terms of friendship, was a scene they had never contemplated. Some thought Orskoff was a prisoner, though he did not act like one. Harvey seemed actually to be the leader.

Hidden among great knolls and sequestered in fertile valleys were little villages seemingly devoted to peaceful pursuits. Flocks of the world famous sheep, the skins of whose lambs are sent to Persia, where they are made into garments or cured and sent to Europe and America, were browsing on the hillsides.

All the herdsmen bore arms. One would have a rifle; another wore a belt in which two or three pistols were thrust; some carried the old time spear. Their garb was most picturesque. The turbaned Turk, the jaunty Cossack, the jacketed Greek, none of these could match the gay dress of these hill-men.

The road grew rougher and more difficult. They climbed laboriously, stopping often to give their horses a breathing spell. On either side the jagged rocks rose to great heights and the mountainous flood majestically about them.

"No wonder these people cannot be subdued," said Harvey. "Nature has built for them a fortress that no guns can batter down."

"The trouble is," said Orskoff, "that nature does this only where a fortress is not necessary. When it comes to guarding a city, placing a battlement upon a passage between two seas, nature may be gracious enough to bestow a rock or two, but they must be fashioned by the hand of man to suit the purpose of defense."

"The reason is not that nature is grudging," said Harvey. "It is that man is so stubborn that he establishes his cities in places where they can be established. Nature's fortifications are in places where no one ever wants to go."

"Except ourselves at the present time. Hello! There is a big town."

They had reached a high point in the road and looked down a sloping stretch into a valley, where a town was laid out that called forth exclamations from both. Amid green and luxurious surroundings, on the banks of a little river that found its devious way into the Scythian gulf, this city of the Zannucks was laid out with a precision that would do credit to an English or American town. Following the almost straight line of the river, the main street stretched a half mile. On this were the principal bazaars and market places, with drainage directly into the river. At right angles to this were other streets, with houses of stone or wood, ornamented according to the taste of the owners, each having a little patch of green and fruit trees and garden.

"Orskoff," said Harvey, pointing to an elevation back of the town, "probably the only thing this town lacks is good drinking water. I'd like to put up one of my windmills and a pump right there. I'll ask Palpak for a concession when the other business is over."

"So confident are you in the success of the expedition that you can talk of windmills?"

"I've talked windmills all my life. I made them when I was a boy. I can."

## CLEANLY WOMAN.

Erroneously Thinks by Securing Her Soap That She Cures Dandruff.

Cleanly woman has an erroneous idea that by securing the soap, which removes the dandruff scales, is curing the dandruff. She may wash her scalp every day, and yet have dandruff her life long, accompanied by falling hair, too. The only way in the world to cure dandruff is to kill the dandruff germ, and there is no hair preparation that will do that but Newbro's Herpicide. Herpicide by killing the dandruff germ, leaves the hair free to grow as healthy Nature intended. Destroy the cause you remove the effect. Kill the dandruff germ with Herpicide. Sold by leading druggists. Send for a sample to The Herpicide Co., Detroit, Mich.

pick out a likely spot for one with my eyes shut."

Harvey was interrupted by the impetuous welcome given to the returning chief.

"Hall, Palpak, chief of the Zannucks!" cried the people, men, women

"Listen, O my people!"

and children rushing to surround the party. "What hast thou brought to pay the terrible tax the ameer has put upon us?"

"Much treasure, my children! It is well. These are my friends, to whom you must show hospitality."

"We will! We will! Thy friends are our friends, O Palpak!"

"There is much to be said. The treasure will be guarded until the tax of the ameer is paid. But there is something to be done now. Let my captives come to me while we eat and rest. We must hasten away to obtain more treasure and perform a service for my friends."

He led them to the finest house in the place, where women waited upon them. Wine and food were brought. When they had finished, Harvey and Orskoff smoked and listened to the parley between Palpak and his captives. There were ten of these, including the brothers of Palpak. Domitian was second in command by reason of his relationship as next eldest brother of Palpak.

"Is war declared?" asked one of the warriors. "Have the hated Muscovites again threatened us?"

"No! It is not war against the Muscovites."

"What, then, O chief? Inform us that we may fight as becomes the Zannucks."

"A caravan conveying much treasure and that which is greater than treasure, of more value than gold or gems, will pass on the way to Bokhara. It will be composed of the servants and soldiers of the ameer, who has so frequently sent soldiers to murder us and steal our children and compelled us to pay tribute. These soldiers of the ameer have stolen two beautiful girls, who were to be the wives of my two friends. I was in difficulty, and this one, the American, assisted me and saved my life. The other, a Muscovite officer, had us in his power, but released us that we might bring the tribute to you, my people. In return I have told them that we would go to the Silcon pass and rescue the young women they love so well."

## Drudgery

### And Worry Sap Woman's Nervous Vitality.

There is nothing more nerve wrecking than household duties and the care of children. The drudgery, worry and petty annoyances of the day, and broken rest at night soon exhausts her vitality and she becomes nervous, irritable and restless. If allowed to continue, it ends in Sick, Nervous Headaches, Stomach, Liver and Kidney troubles, and those terrible Periodical Bearing-down pains, which come from nervous exhaustion.

Dr. Miles' Restorative Nervine is a never-failing remedy for such cases. It builds up and soothes the nerves, and brings the sweet, restful sleep, so much needed.

No other medicine is so pleasant or so curative in every case of female weakness, nervousness or general worn-out condition. Try it at our risk. Cost refunded if first bottle fails to benefit you.

"I had been sick several years with indigestion and nervous prostration which kept me almost constantly under a physician's care, and while I had been treated by four doctors, received only temporary relief. I was very weak and helpless, and unable to attend to my household duties. After reading about Dr. Miles' Nervine, I concluded to give it a trial. The first few doses brought restful sleep at night, and I was able to eat and do all my work. The treatment rapidly improved and now I am well and able to do all my work."

At the school meeting held in our district Tuesday night Mr. A. Allen was elected clerk in place of Will Harris, and Chas. Hackbarth as treasurer in place of Bert Dixon. C. A. Hunt will continue as director.

Bicycle riding is considered a pleasant pastime, but not so much pleasure when you have to leave your wheels and by the rays of light from a borrowed lantern trudge your weary way home through rain and mud, as two of our prominent farmers did just recently.

## MILTON JUNCTION.

Milton Junction, June 7.—Rev. N. M. Mills, of Bridgeton, N. J., who was in attendance at the Northwestern Association of the S. D. B. church as delegate from the Eastern association, was killed in the railroad wreck at Litchfield, Ill., Sunday. He went from Milton Junction to Dodge Center, Minn., and was then to go to St. Louis and there meet a brother whom he had not seen for years.

He stopped in Chicago over the Sabbath and was on the train which was wrecked. His brother, Rev. O. S. Mills, of this place, has gone to the scene of the accident and will take the remains back to Dodge Center, Minn., their old home. His wife and three children from Marlboro, N. J., are coming from the East to Dodge Center. Rev. Mills was a strong, robust looking man of fine talents and his sermon given during the meeting here was highly spoken of.

The Fourth was celebrated in the usual way. Many going to Janesville but the majority were satisfied to having a quiet little celebration at Milton. The parade at that place was fine and would have done credit to a larger town. The ball games at Crescent park and at Milton were well played and resulted in victory for the home teams at both places. There was a good crowd out in the evening to see the fireworks and take it all around a very enjoyable day was had.

Mrs. Pearl Hill and child, of Janesville, are spending a few days visiting her parents, Mr. and Mrs. Frank Smaley.

## SURVEY STAKES WERE REMOVED

Rosebud Agency Land Rush May Be Seriously Handicapped by Miscraents.

Bonesteel, S. D.—A government investigation of the startling report that nearly every stake placed on the Rosebud reservation marking the old government survey had been removed or misplaced may be ordered at once. The report that the stakes had been removed was brought here by parties who had been out on the reservation.

The truth of the report was acknowledged by some of the leading locating agents. One of them said: "It is absolutely true that hardly a stake marking out the different sections is now in place. Many that are standing have been removed to a wrong section."

No one else was able to offer an explanation of how or why it had been done. A clerk in charge at McPaul acknowledged that he had heard of the rumor, but did not know as to its truth. He said it was what had happened in Oklahoma. He did not know what steps the government would take, but an investigation would probably be ordered, and if the guilty parties are discovered they will be dealt with summarily. Such a situation would place the homeseekers at the mercy of the locating agent, and would make fraud possible. He will be absolutely compelled to employ an agent and if the agent is fraudulent he may deceive the homeseeker.

The registration went slowly on this morning, the rain continuing. Reports received here indicate that immense crowds will be on hand Monday. Excellent order prevailed.

Yankton, S. D.—The number of people who have registered in Yankton exceeds the number registered in Bonesteel, Chamberlain, and Fairfax together.

Chamberlain, S. D.—The registration here today was about the same as Thursday. The weather continues cloudy.

Fairfax, S. D.—There was a light registration, rain and mud interfering.

Excursion to World's Fair July 25th Eight days at the world's fair, St. Louis, with all expenses paid for \$28 is an opportunity which will be given Janesville people July 25th. Prof. J. M. Turner, manager of the Wisconsin Outing club, is in charge of the arrangement by which people may visit the great exposition in more real comfort and pleasure than can be obtained in any other way. A city of tents with furnishings all new has been established near one of the main entrances to the fair grounds and every detail has been perfected to make the sojourn of visitors pleasant and profitable. There will be no better of for this season to see the sights for eight days at a moderate expense than the excursion of July 25th. For complete information write J. M. Turner, Mgr. Wisconsin Outing Club, 99 Dearborn St., Chicago, or 6650 Wash. Ave., St. Louis, Mo.
